PROFILE

Passionate software engineer with a strong focus on UX/UI and graphic design. Driven by creativity and functionality, with a background in visual arts and a keen interest in emerging design tools and artificial intelligence. Enjoys both independent work and collaborative environments, whether on-site or remote. Currently seeking opportunities to deepen programming expertise while exploring game development, with a special interest in creating immersive experiences that blend storytelling with innovative mechanics.

PROFESSIONAL EXPERIENCE

Graphic Designer, Social Media Manager, and Web Development intern

American Language Center, Mohammedia

July - August 2024 (1 month)

- Designed and launched a responsive, multilingual website for ALC Mohammedia, transitioning from HTML/CSS to React for future scalability.
- Managed social media platforms, creating and scheduling engaging posts for events, announcements, and celebrations.
- Remastered the ALC Mohammedia logo and developed cohesive visual branding across digital platforms.
- Collaborated with the administrative and academic teams to ensure accurate representation of programs and activities.

Graphic Designer

ENSET, Mohammedia

2024 - Present

- Created numerous designs for events hosted by various school clubs, including "N7 Geeks" and the "English Speakers Community".

Web Development intern, Graphic Designer

Global Media and Events Services, Imouzzar Kandar

April - June 2023 (2 months)

- Developed and hosted the website "bawabapress" (Full-stack).
- Designed a variety of graphic materials including logos, social media content, and website elements.

IT Department intern

Al Akhawayn University, Ifrane

July - August 2022 (1 month)

- Developed web interfaces using WordPress.
- Assisted with the configuration and observation of web hosting and information system security.
- Gained insight into the functioning of network and telecommunications infrastructure equipment.
